Subject: Re: Gold King Mine Incident Command Note

Ron: I'm not following your first point - the purpose of this not is precisely to support IC decision making. With respect to your second point we can text underscoring your point.

Mathy,
I would suggest that we should have language that supports the the IC and field operations. Plus the Regions will continue communications with state and local jurisdictions that assure information sharing that results in positive relationship management .

Ron, Jared:

Attached is a note that I and Althea Foster, the current incident commander, plan to send out tomorrow morning regarding the incident command structure for the Gold King Mine Site Response. Please let me know if you have any comments ASAP.

Once the final is sent out, I ask each of you to send this out to your senior leaders involved in the response along the lines of the proposed forwarding note.

Thanks,

Mathy Stanislaus
